

COMPANY PROFILE

Dhe Industrial was founded in 2002, named **TFM Engineering**. The company's activities began as a distributor of Domnick Hunter, which is dedicated to the design and manufacture of high quality Compressed Air Treatment and Gas Generation Products.

In 2005; The world's leading producer, in the field of motion and control technologies; **Parker**, bought **Domnick Hunter**, **Hiross** and **Zander** firms, so Hiross and Zander's compressed air treatment equipments joined to Tfm Engineering portfolio, too.

In the same year, Tfm became distributor of Boge Compressors, which is known as one of the leading manufacturers, regarding screw and piston compressors in Germany.

In 2008; Company changed its title as **Dhe Endüstriyel Basınçlı Hava ve Gaz Çözümleri Sanayi ve Ticaret Limited Şirketi**.

In the same year; Dhe also added a world-famous firm to its solution partners. This firm known as German **Sauer Compressors** which is manufacturer of medium-high pressure piston compressors.

In 2011; Dhe began working with British engineering design firm, named **BSL Gas Technologies**. With this significant partnership, Dhe was able to serve on mixing gas applications.

COMPANY PROFILE

In 2012; The product portfolio of Dhe Industrial expanded with British firm **Hitech** which desings and manufacturers gas analyzer, and Italian firm **Termomeccanica** which manufactures compressor and pump.

Finally in 2014; American leading company **Gardner Denver** has joined our family. From now on, DHE can provide oil-free screw, liquid-ring, rotary vane and gas compressors to almost all kind of industrial application.

DHE Industrial is always ready to offer you right solutions about nitrogen generators, gas analysers and pressurization, separation, purification, conditioning of air and gases with quality materials and complete service.

Best Regards,

DHE INDUSTRIAL
